## FOREWORD

In writing the foreword to the 60th issue of the STATISTICAL YEARBOOK, we wish to express our grateful appreciation to some 3,000 brethren for their willing co-operation in returning their parochial report questionnaires. While some were more prompt than others, the participation was 97%. Only 93 pastors failed to report, or their reports arrived too late. Of these, 33 had sent no report the previous year either.

No reports were received for 205 congregations and preaching stations. That is an improvement over 1944, when the YEARBOOK contained 285 blank lines. We noted an improvement also in the promptness with which the reports arrived. By the end of February 75% of all reports had reached our desk. A year ago only 65% of the reports had arrived during the same period. As a result, the current issue will be off the press at a much earlier date than last year.

We make particular mention of the ten Districts which registered 100% returns: *Oregon-Washington, Argentina, California-Nevada, Iowa East, Kansas, Montana, North Dakota, Ontario, Southeastern, and Western.*

As to contents, the present volume offers few changes from its predecessor. Several tabulations, such as *Value of Property and Indebtedness* and *Church Attendance*, were omitted. We see no need in repeating these every year, since most pastors keep former issues. After a three-year interim this volume again offers a tabulation of congregations according to size, page 145. We suggest a perusal of the *Table of Contents* on the next page for quick orientation. In the case of missing reports, the last available figures were used in computing totals.

In conclusion — for successes scored, for gains registered, for improvements noted, let us give all glory to God alone. For losses sustained, for failures suffered, for opportunities wasted, let us humble ourselves before God, seek His pardon, and mend our ways. And let us not forget that though statistics are vital to the successful management of a church body and that Synod no less than business corporations and governmental bureaus can dispense with statistical calculations, this volume reflects the size and activities of a visible church body and is subject to all the foibles of human limitations in the form of omissions and inaccuracies. But the Chief Statistician of the invisible Church, the omniscient Lord above, makes no mistakes. No reports are missing on His desk. "The Lord knoweth them that are His." Their names are written in the Book of Life.

ARMIN SCHROEDER, *Statistician*

## EXPLANATORY REMARKS

### On District Parochial Reports

1. *Location*.—In the District Parochial Reports section, which begins on the next page, all stations are listed in their proper alphabetical order except in the case of *Filialen* (additional charges). The latter are listed with the main station (where pastor is resident) in order to present a better over-all picture of the work done in one parish. All stations not listed in their proper alphabetical order have been indented. The Station Index in the rear of the book shows with which station an additional charge is listed.

Consult the Station Index also if you cannot find a certain congregation. It may be listed under another name. Thus, in the Michigan District you will look in vain for Frankentrost, but the Index will tell you, "Frankentrost (See Bay City 8 W)."

2. *Visiting Circuit*.—A new column which indicates circuit affiliation. The numbers used to designate the circuit are explained in the "Key" following each District's reports. This key designates the Visitor (as of May 1, 1946) and gives the official name of each circuit. Where Districts themselves are using numbers for their circuits, these have been retained, and the general area of the circuits' location is indicated.

3. *Names of Congregations*.—These have been placed in a separate column for the sake of convenience. A dash in this column means that the respective place is not organized. Where a name exists before organization has taken place, such name has been placed immediately after the name of the city (see page 4, line 12).

4. *Pastor*.—Ditto marks beneath the pastors' names indicate the size of a parish at a glance.

5. *Year Organized*.—A dash means the place is unorganized if no voting members are recorded. If voting members are listed, a dash means that the year of organization is not known or was not reported.

6. *Parochial School, Enrollment*.—An asterisk placed before number of pupils indicates that congregation has no school of its own, but is formally affiliated with school of sister congregation or participates in a central school.

7. *Parochial School, Teachers*.—Plain numerals indicate regularly installed (men) teachers. In all other cases initials are used, viz., P = Pastor, L = Lady Teacher, S = Student, C = Candidate, and A (Brazil) = Man Lay Assistant. Thus, 3, 2L, C means three installed teachers, two women, and a candidate teach in that particular school.

8. *Language Used*.—Takes the place of the former "Services per month." The abbreviations used are:

E = English	It = Italian	P = Portuguese
G = German	Hu = Hungarian	La = Latvian
Sp = Spanish	Sl = Slovak	Li = Lithuanian
Po = Polish	Es = Estonian	Ch = Chinese

9. *Property Value*.—To eliminate some ten thousand zeros, the property value has been expressed in terms of thousands of dollars. Thus 1.5 means \$1,500.

\* For North America = 2.0%; for U.S. only = 2.0%; for Canada = 3.8%; for South America = 6.9%.

Note: The English District loss is due to the transfer of seven stations with 2,400 communicant members to other Districts. Without such transfer a gain of 2.8% would have been registered.

NOTE.—The list starts with 1881, although baptisms and confirmations of adults were also reported prior to this. In 1918 a special column was set aside for these reports, and the number of confirmed rose from 827 to 2,100, which showed that prior to this time not half the pastors had reported on this phase of their ministerial activity.

NOTE: "Entered District" and "Released to Other Districts" does not include transfers of inactive or retired pastors and teachers.

"From Other Districts" includes men from sister Synods and those colloquized.

## Station Index

The following list presents alphabetically the cities and communities in which Missouri Synod congregations and preaching stations are located, designates their District affiliation, and shows the number of the page on which the parish statistics may be found. In the case of *Filialen*, which in the *Parochial Reports* section are not listed in their proper alphabetical place, but follow immediately after the main congregation, the Index designates the station with which they are listed. Thus, *Abbotsford, Wis., w. Dorchester, NW-81* means that on page 81, North Wisconsin District, you will find *Abbotsford*, not in its proper alphabetical place, but immediately following *Dorchester*, with which it forms one parish.

By the use of cross references (in parentheses) the Index also helps you in determining under which name the reports of certain rural and suburban churches, which may be variously designated, are to be found. Thus, in the Michigan District section you will look in vain for *Frankentrost*, but the Index comes to your rescue by stating, *Frankentrost. (See Saginaw 7 E)*. There are more than 500 such cross references.

A list of District abbreviations follows the Index.
